An island with a mysterious giant banyan tree and dancing butterflies! [Kikaijima Route]

The Pacific side, where you can see coral walls and large banyan trees, has mostly flat terrain and you can enjoy comfortable cycling. In the center of the island, which is the second fastest rising island in the world, the Sugar Road, which stretches skyward through sugar cane fields, is popular. Additionally, the marine terraces and ocean views that can be seen from Hyakunodai will captivate you.

Kikai Airport

Kikaijima Airport is the starting and finishing point of this course. Kikaijima is a raised coral reef island with a circumference of 48km, and a mostly flat topography with a maximum elevation of 211m. Sugira Beach is right near the airport, and the airport has an open atmosphere.

approx. 3km

Sugira Beach

A beautiful beach that stretches along the runway of Kikaijima Airport. It is a natural cove surrounded by coral reefs and the waves are calm. There is also a diving spot just outside the cove, which is recommended for relaxing while watching the beautiful sea and the sunset offshore.

Sugarcane Field near the Kawamine

As you leisurely cycling through the beautiful sugar cane fields, you will be greeted by colorful flowers here and there. It is an area with a beautiful contrast between the lush sugar cane fields and the colors of the flowers.

approx. 3km

Yui Cafe

This is a cafe where you can take a relaxing break while enjoying the scenery of the island's special products being processed. You can enjoy a menu that focuses on "Kikaijima-grown" ingredients, such as cakes made with island-grown sesame seeds and brown sugar, as well as juice from native mandarin oranges and vegetable soup.

approx. 2km

GOAL

Kikai Airport

Tekuzuku Gigantic Banyan

This banyan tree stands tall in Tekuzuku community and is estimated to be over 100 years old. The branches that stretch to cover the sky and the trunk that stretches up to 16m are impressive and full of mysterious power.

approx. 8km

Coral Wall

Aden village has many old-fashioned coral walls that remain. The center of the community is a beautiful area where every road is lined with tall stone walls and banyan trees, and beautiful flowers bloom all around, reflecting the wisdom of protecting homes in an area prone to typhoons.

approx. 10km

Shitooke Beach

Located on the easternmost tip of Kikaijima, this is an area where you can enjoy the relaxing ocean scenery on the Beach where the waves are calm. In front of the Beach, you will also be greeted by cute subtropical plants and goats.

approx. 2km

Butterfly of Kikaijima

Kikaijima is also famous as a butterfly island. Also known as the lady of the southern islands, the Oogomastara (Peppar Butterfly) is designated as a protected butterfly in the town, and migratory butterflies such as the Asagimadara (Chestnut Tiger Butterfly) also inhabit the area.

approx. 7km

Sugar Cane Road

Sugarcane fields and blue skies as far as the eye can see, along with a 3.5km straight road that leads to the sea. It is also known as the "straight road leading to the East China Sea" and is a popular spot for tourists. *Please be careful not to ride too fast.

approx. 6km

approx. 4km

Hyakunodai National Park Observatory

Located on a raised coral reef at an altitude of 203m in the center of Kikaijima, the view of the horizon makes you realize the roundness of the earth. The view of the sugar cane fields and the emerald sea of coral reefs spreading out below is a spectacular sight, and it has been selected as one of the best 10 views of Amami.

Hawaii Beach

In the past, the people of the island named it "Anyadumari," but old man, who returned from Hawaii, said, "This beauty is just like Hawaii," so they started calling this beach "Hawaii." became. The color gradation of the sea is beautiful and you can see table coral.
